

# INSULATION LINE FOR BUILDING WIRES/ AUTOMOTIVE WIRES

## WORLD CLASS EXTRUSION SYSTEMS

Supermac High Speed insulating line for House Wiring/Auto Cable/Control Cable is dedicated line as per Customer's requirement. It has flexibility, over managing the wide range of products. The configuration of the line also made suited to Customer budget and his requirements.

The lines are available in Single/ Dual/ Triple Extrusion System for providing skin/single line/dual line through Piggy back mobile Extruder.

These mobile Extruders gives the benefit of space saving and could easily be changed for any line direction. The Extruder can be rotated 360° with the base fixed to the ground.

## KEY FEATURES:

- Fast tool changing
- All machines are fully Guarded
- Online Diameter controlling for all layers
- Compatible with Industry 4.0 norms & IOT Enabled
- On line remote service facility to handle PLC and electronics problems.
- In-house manufacturing that ensures excellent service and quality.
- Electro mechanical switches are given for operator safety during running

Since the Head is Self Centered and therefore it eliminates the problem of centering the cable and minimum start up time is achieved. Operator just needs not to waste his time on such things and look forward to other production aspects.

Efficient designing and high quality of workmanship ensures minimum change over time and gives Customer advantage of changing size & colour any number of time during production.

The multi pass Gradient Cooling System helps in space saving and provides better cooling solution during production process, especially in high speed lines. Design of trough is such that the cable gets the required residual time for proper cooling.

The inclusion of Dual Take up system with two Pay off in line enable to line to run continuously and eliminates the stoppages during Bobbin shifting resulting in high productivity.

All the individual machines are in Synchronization with each other, therefore the controlling is easy through one pot which offer best results. The option of PLC & Non-PLC again enables Customer to decide suiting his budget and requirements.

The dual insulation lines are available in different option 45+30, 60+38, 65+45, 80+45 & 100+60 for line speed up to 1000mpm. All these combination caters to different requirements & provides different solution with different speeds.

## SUPERMAC INDUSTRIES (INDIA) LIMITED

AN ISO 9001-2015 CE

### REGISTERED OFFICE :

A-29, Naraina Industrial Area  
Phase-1, New Delhi-110 028, INDIA
